

WE BUILD OUR FUTURE!
LET'S DO IT TOGETHER!

I. Horbachevsky
Ternopil National Medical University

Іван Горбачевський

DEAR FRIENDS

Human life and health have always been and always will be the most treasured value. Medical professionals are the guardians of human life and health; their vocation is arguably the most charitable and respected among the other professions. The images of a doctor or nurse evoke the feelings of hope and protection, mercy and care.

I. Horbachevsky Ternopil National Medical University of the Ministry of Health of Ukraine is the place where our country's tomorrow is born and its future becomes a reality. The University is a modern medical school, dedicated to offering every opportunity for academic, scholastic, athletic, and personal development of its students. Given the demands and challenges of today, our mission is to ensure a high standard of academic process, such as the implementation of innovative teaching approaches, utilization of the latest diagnostic and treatment techniques, and use of modern medical equipment to train future doctors, pharmacists and nurses. We strive to prepare highly skilled health workers people could trust with their lives. The University is a true temple of science and a forge of medical professionals. Its team of dedicated specialists aspires to share their knowledge and expertise with the younger generation, strengthening the status of TNMU as one of the most respected academic and research institution in Ukraine.

Students have always been on the forefront of societal changes. It is undeniable that all of you have superpowers: zeal for doing good deeds and infinite enthusiasm. Your inspiration, the thirst for knowledge, social activity and sincere patriotism will be instrumental in developing the future of Ukraine, its prosperity and dynamic renewal. The young people just entering the university will undoubtedly discover a wonderful world of knowledge and achievements in science and medicine!

MYKHAYLO KORDA

MD, DSc

TSMU Rector

**I INVITE YOU
to become a part of our big
welcoming family!**

UNIVERSITY
OF MODERN
LEARNING**

**PER SCIENTIAM
AD SALUTEM AEGROTI**

**IT IS AN IMMENSE HONOR
AND RESPONSIBILITY TO BECOME
DOCTORS, CARE FOR PEOPLE...
AND LIVE UP TO THE HIPPOCRATIC OATH!**

WHAT MAKES US TO STAND OUT

- ✓ TNMU is among leading universities in the ranking from the Ministry of Health of Ukraine.
- ✓ TNMU is one of the highest-ranking Ukrainian universities in CEDOS Analytical Center transparency study.
- ✓ TNMU is among leading medical schools of Ukraine in the Webometrics Ranking and UniRank of World Universities.
- ✓ University is in the top five in the overall ranking of medical schools of Ukraine according to the International Educational Portal "4 International Colleges & Universities".
- ✓ TNMU is among 10 Ukrainian educational institutions (and the only medical school) – members the Strengthening Academic Integrity in Ukraine Project (SAIUP).
- ✓ TNMU is the only university in Ukraine that has implemented distance learning Bachelor's and Master's degree programs in Nursing for international and domestic students.
- ✓ The most active educational institution among medical colleges in inventive work.
- ✓ TNMU's center for emergency medical care, disaster and military medicine is the only such facility in Ukraine and if used to train officers of Army reserve medical units.
- ✓ TNMU has initiated and became one of the founders of the International Scientific and Educational Innovation and Technology Consortium of Medical, Physical Education and Sports Universities.

TNMU TODAY

- ✓ The University is comprised of the following structural units: Faculty of Medicine; Faculty of Pharmacy; Faculty of Dentistry; International Students' Faculty; Institute of Medical and Biological Problems; Institute of Modelling and Analysis of Pathological Processes; Institute of Morphology; Institute of Pharmacology, Medical Biochemistry and Hygiene; Institute of Nursing; and Institute of Postgraduate education.
- ✓ 93 % of university faculty have an academic degree; this is the highest number among all medical schools of Ukraine.
- ✓ Most of the TNMU teachers give lectures and practical classes in English, 40 % of them have international certificates of English at the B2 level.
- ✓ TNMU implements modern learning technologies: independent student testing, remote evaluation using Moodle e-learning platform, practical skills matrices, and objective, structured clinical exam.
- ✓ TNMU is the leader among universities in Ukraine by the number of winners in student olympiads in educational disciplines.
- ✓ The University initiated a double diploma program (Ukrainian and European) for students enrolled to the Institute of Nursing Bachelor and Master Degree programs.
- ✓ TNMU operates a multidisciplinary University Hospital; the university has launched an interdepartmental simulation training center; it supervises five teaching and practice centers of primary medical and sanitary care, and a Dentistry Clinic at the University Hospital.
- ✓ TNMU faculty and staff work at its 57 academic and clinical Departments. Among the faculty are a full member of National Academy of Medical Sciences, two corresponding members of NAMS, and numerous recipients of National and Presidential prizes and awards of distinction in teaching and research.

ACADEMICS

A leading medical school in Ukraine, TNMU utilizes a traditional multi-disciplinary approach to higher education. The academic process adopts European and World qualification requirements for the specialists in the fields of medicine, dentistry, pharmacy, and nursing.

In 2017 TNMU was awarded international certificate of ISO 9001:2015 standard of Quality management systems.

Today, the University employs more than 600 highly accomplished professors and enrolls more than 6,000 full-time and distance students (over 4,000 domestic and about 2,000 international). The teaching is done in Ukrainian and English.

TSMU carries out training for 55 licensed and accredited specialties. 15 of these specialties are taught at the undergraduate level and 40 at the graduate level.

TNMU clinical Departments are located in 18 affiliated regional and municipal medical institutions. Applicants with completed secondary education are invited to enroll for the following programs of study:

► Master's Degree in:

Specialty	Duration of Study	Form of Study
Medicine	6 years / 5 years	full-time
Dentistry	5 years / 4 years	full-time
Pharmacy and Pharmaceutical Industry	4 years / 5 years	full-time / distance
Nursing	2 years	full-time / distance
Physical and Ergo Therapy	2 years	full-time / distance
Public Health	2 years	full-time / distance

► Bachelor's Degree in:

Specialty	Duration of Study	Form of Study
Physical and Ergo Therapy	4 years	full-time
Nursing	2 years / 4 years	full-time / distance
Paramedic	3 years / 2 years	full-time

University campus has seven academic buildings, including large inter-departmental simulation training center where students can perfect their practical skills on medical manikins and in simulated clinical setting. The students have the opportunity to train not only in Ukrainian clinics, but also abroad, including in Poland and Turkey.

TNMU operates three teaching museums: at the Department of Medical Biology, Department of Human Anatomy and Department of Pathological Anatomy and Forensic Medicine.

Within the walls of the university there is a Preparatory Department, where students from different countries of the world deepen their knowledge of chemistry, biology, physics, study Ukrainian language and culture.

RESEARCH

The University is one of the centers of medical science in western Ukraine, carrying out research on the crucial issues in environmental, biological and medical fields. TNMU researchers have access to 5 certified research laboratories and an animal facility. The research staff of TNMU includes more than 100 doctors of science and close to 500 PhDs. The TNMU offers all stages of postgraduate degree training and research necessary to fulfill PhD and DSc degree requirements. Its researchers participate in national and international collaborative research projects, including those attracting independent financing. Three university professors are Fulbright scholars. Students are actively involved in research and are a part of the 900-strong community of young scientists. TNMU Press publishes twelve scientific journals accessible through the Open Journal System platform.

CLINICAL AND PREVENTIVE WORK

The University has a wealth of experience in training medical personnel. TNMU faculty and staff perform medical duties in 33 clinical departments of 19 regional and municipal medical institutions of Ternopil region and in the cities of Rivne and Zhytomyr with the total of 4,800 medical beds. Among more than 350 TNMU academic staff working at the clinical Departments are more than 60 full professors, about 200 associate professors, and over 130 assistant professors. The University operates a Dentistry Clinic at the University Hospital and a mobile Clinic on Wheels. TNMU has established a system of teaching and practice centers for primary health care in rural areas.

INTERNATIONAL COLLABORATION

TNMU works with 76 foreign partners from 31 countries of the world: USA, Canada, Argentina, Sweden, Syria, Malaysia, Kingdom of Morocco, Egypt, Turkey, France, Poland, Germany, Czech Republic, Hungary, Slovak Republic, Austria, Republic of Kosovo, Georgia, Tajikistan, Kazakhstan, Uzbekistan, Republic of Belarus, Belgium, the Hellenic Republic, Switzerland, the Estonian Republic, the Latvian Republic, the Republic of Lithuania, the Republic of Moldova, China and Malta. These partnerships create a network of joint academic, professional and research projects.

TNMU is a participant on a number of international programs: Erasmus+, Erasmus Mundus Medea, PolBuCan, Mevlana, Horizon 2020, and Cross-border Cooperation Program Poland-Belarus-Ukraine 2014–2020.

The University is a member of the European University Association, Baltic University Program, and has become a signatory to Magna Charta Universitatum.

TNMU successfully collaborates with international organizations, such as the World Health Organization (WHO), United Nations Educational

Scientific and Cultural Organization (UNESCO), Educational Commission for Foreign Medical Graduates (ECFMG), The Foundation for the Advancement of International Medical Education and Research (Distance Learning (FAIMER), Association for the International Exchange of Students in Economics and Commerce (AIESEC), Deutscher Akademischer Austauschdienst (DAAD), and European Resuscitation Council.

Implementing the Visiting Professor program, TNMU consistently invites leading international scholars to give lectures and workshops to its students and academic staff.

In recent years the University has been placing a special emphasis on developing a program of international professional internships.

Each summer, TNMU holds a unique the International Student Summer Camp, aimed at bringing young people together and connecting medical school students from Ukraine and abroad. The Summer Camp offers professional trainings, sports competitions and performing arts workshops. Since its launch in 2006, more than 1,000 domestic and foreign students have participated in the program.

The University continues to assert itself on the international stage, opening new horizons and worldwide opportunities for its staff and students.

UNIVERSITY LIBRARY

The University has a modern research library for the needs of its professors, postgraduates and students. They can check out study and research literature, study in the reading room, use internet class, journal department, information and bibliographic department, and a meeting space for holding roundtables, discussions, and presentations.

The library collection currently holds about 400 thousand documents, representing a wide range of scientific, educational, artistic, and reference literature.

Library visitors have free access to databases such as HINARI, BioMed Central, PubMed, Blackwell, Wolters Kluwer International Health and Science, Springer Verlag, and John Wiley, allowing them to access publications in more than 3,000 professional national and international journals.

STUDENT LIFE

The University is a nexus for personal development of its students, a place for meetings and communication. The creative team of TNMU, ArtDrama Theater Studio, Game Club, standup team, One by One rock band, student and teacher choir, Chervona Kalyna dance group and other performing arts and music ensembles are active at university. An artistic student team publishes a glossy quarterly Unitime.

Students have excellent access to excellent athletic and sports facilities. Many of them participate in team sports: basketball, volleyball, athletics, kickboxing, tennis, and gymnastics.

TNMU is proud of its strong volunteer movement. Students visits to care facilities, organize and carry out a variety of public awareness campaigns, charity actions and drives to help disadvantaged groups.

Students have affordable recreation and relaxation options in town Chervona Kalyna Academic and Recreation Complex. Located in a unique forest setting, this facility boasts a garden, arboretum, petting zoo, open-air pool and courts, and physical therapy services.

FACULTY OF MEDICINE

As one of the oldest structural units of the University, the Faculty of Medicine has rich traditions. The Faculty comprises four academic and research institutes, and 38 departments where students undergo theoretical study and general medical practical training. Close to 3,000 students are currently enrolled at the Faculty. Since its inception, more than twenty thousand graduates of the Faculty earned their Doctor of Medicine degrees.

FACULTY OF PHARMACY

The Faculty of Pharmacy includes five academic departments. Today, it enrolls more than 1,000 students. The Faculty manages a number of facilities essential for training of competitive specialists, such as botanical garden, Teaching Pharmacy, modern study rooms and research laboratories. Over the years, it graduated close to 3,500 specialists (pharmacists, clinical pharmacists, and cosmetologists) for work in modern-day pharmaceutical industry.

FACULTY OF DENTISTRY

The Faculty of Dentistry includes four academic departments, and enrolls about 1,000 students. It operates Dentistry Clinic at the University Hospital, where upperclassmen can develop their practical skills. Faculty's academic program emphasizes hands-on experience, thus its students have every opportunity to deliver counseling and medical assistance to the patients of clinical departments affiliated with the Faculty. To date, more than 1,000 dentists have been awarded their degrees.

INTERNATIONAL STUDENTS' FACULTY

The International Students' Faculty enrolls more than 2,000 from about 60 countries. Among its most prominent national societies are the associations of students from India, Nigeria, Ghana and Poland. Faculty-run preparatory program trains its graduates to enroll to any medical university in Ukraine. To date, the Faculty has awarded close to 2,500 Doctor of Medicine degrees.

ACADEMIC AND RESEARCH INSTITUTE OF POSTGRADUATE EDUCATION

The Institute of Postgraduate Education includes General Treatment, Pediatrics, Surgery, Obstetrics and Gynecology, Pharmacy, Dentistry Departments. Today, the institute offers medical residency in close to 20 specialties, and continuous education for doctors in General practice and Family medicine; Urgent Care; Health Care Organization and Management; Clinical Laboratory Diagnostics; and Pharmacy Management. Pre-certification training courses at the Institute of Postgraduate Education cover 19 specialties, while 23 professional improvement courses for doctors are offered in 15 academic and clinical fields. More than 42 thousand doctors and about 10 thousand residents have improved their medical skills and qualifications at the Institute.

ACADEMIC AND RESEARCH INSTITUTE OF NURSING

The Institute of Nursing offers training to health care professionals towards Bachelor's and Master's degrees in Nursing and Paramedic. It was the first among Ukrainian schools to introduce distance learning, building on the modern internet technology and experience of countries that have been using this form of learning to train nursing staff. The Institute trains domestic and international students from the USA, Canada, Israel, Nigeria, Ghana, Zimbabwe and countries of Europe. In its 20 years of work the Institute of Nursing trained close to 4 thousand people.

UKRAINE

Ukraine is a country in the south-eastern part of Europe with the total area of 603,628 km², or 5.7 % of the territory of Europe and 0.44 % of the world. The population of Ukraine is over 48 million. The capital city Kyiv is one of the oldest cities in Europe. The official language is Ukrainian. Most of the population follows Christian faith, primarily of the Eastern denominations such as Orthodox and Greek Catholic. Among other sizable communities of faithful are Roman Catholics, Protestantism and Muslims.

Ukraine is a major tourism destination. The most popular among the travelers are the Black Sea coast, Podillia and Volyn, the cities of Kyiv, Odesa and Lviv. The country's special pride is its natural reserves, totaling about 6 thousand sites. The most notable among them are the Carpathian National Nature Park, Shatsky National Natural Park, and National Nature Park Synevir. Ukraine boasts 200 thousand natural, history, architecture and art monuments, as well as 378 museums.

TERNOPIL

The city of Ternopil in western Ukraine is the business, cultural and spiritual center of Ternopil region. The 7,268 hectare city is a home to the population of about 200 thousand people. A temperate continental of the region is characterized by warm humid summers and cold winters.

The main attraction of Ternopil is a large central lake with an area of 400 hectares. Ternopil parks surprise with their beauty throughout the seasons. These green spaces in the middle of the city invite visitors to relax and recharge both body and soul. Another prominent sight the Old Castle, built around the time of Ternopil founding in 1540. Close to 20 fountains dot the city, bringing together its diverse architectural styles.

Ternopil is a nexus of various art, music and food festivals and performances. Drama and puppet theaters, a music hall, natural history museum, restaurants and cafes, art galleries, and performing art spaces all add up to the atmosphere of coziness and comfort.

Ternopil is a student city, a city of youth and a city of traditions ... Four universities, as well as other schools and colleges attract young people from all over the world seeking quality education. Ternopil is a city where everyone will find a place to they fall in love with ...
